Bangalore, Karnataka, India

SUMMARY

Full Stack Developer with 2+ years of experience building scalable web and mobile applications using React.js, React Native, Django, Python, PostgreSQL, and CockroachDB. Experienced in developing responsive user interfaces, REST APIs, authentication systems, and backend workflows with a focus on performance and maintainable code

EXPERIENCE

Software Engineer

Gowdanar Technologies Pvt Ltd

12/2024 - Present Bangalore, India

Worked on production-grade web and mobile applications using React.js, React Native, Django, and PostgreSQL

- Built and maintained scalable web applications using React.js, Next.js, and TypeScript, enhancing dashboard responsiveness and overall user experience
- Built cross-platform mobile application features using React Native, ensuring responsive UI and smooth performance across Android and iOS devices
- Implemented RESTful APIs using Django REST Framework (DRF), streamlining backend workflows and enhancing API performance for compliance modules
- Implemented JWT authentication and Role-Based Access Control (RBAC) for secure user access management across multiple user roles
- Integrated React/Next.js frontend applications with PostgreSQL and CockroachDB databases to improve data consistency and retrieval efficiency
- Collaborated with cross-functional teams in agile sprint cycles to deliver production-ready features and resolve recurring application issues
- Designed and maintained backend workflows for audit trails and compliance reporting, improving maintainability and reducing manual operational tasks
- Built reusable UI components and responsive designs using React.js, React Native, HTML, CSS, and TypeScript

Project Intern

Gowdanar Technologies Pvt Ltd

06/2024 - 12/2024 Bengaluru, India

Worked on real-world web and mobile application development using React.js, Django, and Python in a fast-paced product environment

- Contributed to live product development by building UI components and backend modules under senior developer mentorship in a fast-paced environment
- Worked with React.js, Django, Python, and JavaScript to develop and improve real-world application features while incorporating code review feedback
- Collaborated with development teams to debug application issues, handle edge cases, and maintain system performance across web and mobile platforms
- Consistently delivered high-quality contributions across frontend and backend development, leading to a full-time Software Developer offer within 7 months for strong ownership and reliability

EDUCATION

Bachelor of Technology

Aditya Engineering College

07/2018 - 07/2022 Surampalem, Andhra Pradesh

KEY ACHIEVEMENTS

Promotion to Full-time Developer

Received full-time Software Developer offer within 7 months of internship based on strong performance, ownership, and contribution to live production projects

Mobile Feature Development

Developed reusable React Native modules and mobile features deployed on Android and iOS platforms with responsive UI and optimized performance

REST API Integration

Built secure REST APIs with Django REST Framework and JWT authentication, improving backend efficiency and data handling

SKILLS

React	React Native	Next.js
JavaScript	TypeScript	HTML5
CSS3	Django	
Django Rest Framework	Python	
REST APIs	JWT	PostgreSQL
CockroachDB	Git	GitHub
GitHub Actions	CI/CD	Docker
Postman	Vercel	Agile

INTERESTS

AI & Emerging Technologies

- Exploring AI integration in web applications
- Learning emerging technologies and development practices
- Building scalable full-stack applications
- Improving application performance and user experience
